

Swiper.js in React

Installation

```
npm install swiper
```

Setup

```
import { Swiper, SwiperSlide } from 'swiper/react';
import 'swiper/css';

function App() {
  return (
    <Swiper>
      <SwiperSlide>Slide 1</SwiperSlide>
      <SwiperSlide>Slide 2</SwiperSlide>
      <SwiperSlide>Slide 3</SwiperSlide>
    </Swiper>
  );
}
```

Import Styles as needed:

```
import 'swiper/css/navigation'; // for arrows
import 'swiper/css/pagination'; // for dots
import 'swiper/css/scrollbar'; // for scrollbar
import 'swiper/css/effect-fade'; // for fade effect
```

5 Slider Types

1. Slider with Navigation & Pagination

Most common use case - arrow buttons + dot pagination.

```
import { Swiper, SwiperSlide } from 'swiper/react';
import { Navigation, Pagination } from 'swiper/modules';
import 'swiper/css';
import 'swiper/css/navigation';
import 'swiper/css/pagination';
```

```

function Slider() {
  return (
    <Swiper
      modules={[Navigation, Pagination]}
      navigation
      pagination={{ clickable: true }}
      spaceBetween={30}
      slidesPerView={1}
    >
      <SwiperSlide>
        <div style={{ background: '#4CAF50', padding: '80px', borderRadius: '8px', color: 'white' }}>
          <h2>Slide 1</h2>
          <p>This is the first slide</p>
        </div>
      </SwiperSlide>
      <SwiperSlide>
        <div style={{ background: '#2196F3', padding: '80px', borderRadius: '8px', color: 'white' }}>
          <h2>Slide 2</h2>
          <p>This is the second slide</p>
        </div>
      </SwiperSlide>
      <SwiperSlide>
        <div style={{ background: '#FF5722', padding: '80px', borderRadius: '8px', color: 'white' }}>
          <h2>Slide 3</h2>
          <p>This is the third slide</p>
        </div>
      </SwiperSlide>
    </Swiper>
  );
}

export default Slider;

```

2. Autoplay Slider (Banner/Hero)

Auto-slides every few seconds. Perfect for hero banners.

```

import { Swiper, SwiperSlide } from 'swiper/react';
import { Autoplay, Pagination } from 'swiper/modules';
import 'swiper/css';
import 'swiper/css/pagination';

function AutoplaySlider() {
  return (
    <Swiper
      modules={[Autoplay, Pagination]}
      autoplay={{ delay: 3000, disableOnInteraction: false }}
    >

```

```

    pagination={{ clickable: true }}
    loop={true}
    spaceBetween={0}
    slidesPerView={1}
  >
    <SwiperSlide>
      <div style={{ background: 'linear-gradient(135deg, #667eea, #764ba2)', padding: '100px',
        <h1>Welcome to Our Website</h1>
        <p>Best products at best prices</p>
      </div>
    </SwiperSlide>
    <SwiperSlide>
      <div style={{ background: 'linear-gradient(135deg, #f093fb, #f5576c)', padding: '100px',
        <h1>Summer Sale</h1>
        <p>Up to 50% off on all items</p>
      </div>
    </SwiperSlide>
    <SwiperSlide>
      <div style={{ background: 'linear-gradient(135deg, #4facfe, #00f2fe)', padding: '100px',
        <h1>New Arrivals</h1>
        <p>Check out the latest collection</p>
      </div>
    </SwiperSlide>
  </Swiper>
);
}

export default AutoplaySlider;

```

3. Multi-Slide Slider (Product Carousel)

Shows multiple slides at once. Great for product lists.

```

import { Swiper, SwiperSlide } from 'swiper/react';
import { Navigation, Pagination } from 'swiper/modules';
import 'swiper/css';
import 'swiper/css/navigation';
import 'swiper/css/pagination';

const products = [
  { id: 1, name: 'Product 1', price: '$29', color: '#FF6B6B' },
  { id: 2, name: 'Product 2', price: '$49', color: '#4ECDC4' },
  { id: 3, name: 'Product 3', price: '$19', color: '#45B7D1' },
  { id: 4, name: 'Product 4', price: '$59', color: '#96CEB4' },
  { id: 5, name: 'Product 5', price: '$39', color: '#FFEAA7' },
  { id: 6, name: 'Product 6', price: '$25', color: '#DDA0DD' },
];

```

```

function ProductSlider() {
  return (
    <Swiper
      modules={[Navigation, Pagination]}
      navigation
      pagination={{ clickable: true }}
      spaceBetween={20}
      slidesPerView={1}
      breakpoints={{
        480: { slidesPerView: 2 },
        768: { slidesPerView: 3 },
        1024: { slidesPerView: 4 },
      }}
    >
      {products.map((product) => (
        <SwiperSlide key={product.id}>
          <div style={{
            background: product.color,
            padding: '30px',
            borderRadius: '12px',
            textAlign: 'center',
            cursor: 'pointer',
          }}>
            <div style={{ fontSize: '48px', marginBottom: '10px' }}><img alt="product image" data-bbox="678 473 698 488"/></div>
            <h3>{product.name}</h3>
            <p style={{ fontSize: '20px', fontWeight: 'bold' }}>{product.price}</p>
            <button style={{
              marginTop: '10px',
              padding: '8px 20px',
              border: 'none',
              borderRadius: '6px',
              background: '#333',
              color: 'white',
              cursor: 'pointer',
            }}>
              Add to Cart
            </button>
          </div>
        </SwiperSlide>
      )))
    </Swiper>
  );
}

export default ProductSlider;

```

4. Fade Effect Slider (Image Gallery)

Smooth fade transition between slides. Best for images.

```
import { Swiper, SwiperSlide } from 'swiper/react';
import { EffectFade, Autoplay, Navigation } from 'swiper/modules';
import 'swiper/css';
import 'swiper/css/effect-fade';
import 'swiper/css/navigation';

function FadeSlider() {
  return (
    <Swiper
      modules={[EffectFade, Autoplay, Navigation]}
      effect="fade"
      navigation
      autoplay={{ delay: 4000, disableOnInteraction: false }}
      loop={true}
      fadeEffect={{ crossFade: true }}
    >
      <SwiperSlide>
        <div style={{
          height: '400px',
          background: 'url(https://picsum.photos/800/400?random=1) center/cover',
          borderRadius: '8px',
          display: 'flex',
          alignItems: 'center',
          justifyContent: 'center',
        }}>
          <h2 style={{ color: 'white', textShadow: '2px 2px 4px rgba(0,0,0,0.7)' }}>Image 1</h2>
        </div>
      </SwiperSlide>
      <SwiperSlide>
        <div style={{
          height: '400px',
          background: 'url(https://picsum.photos/800/400?random=2) center/cover',
          borderRadius: '8px',
          display: 'flex',
          alignItems: 'center',
          justifyContent: 'center',
        }}>
          <h2 style={{ color: 'white', textShadow: '2px 2px 4px rgba(0,0,0,0.7)' }}>Image 2</h2>
        </div>
      </SwiperSlide>
      <SwiperSlide>
        <div style={{
          height: '400px',
          background: 'url(https://picsum.photos/800/400?random=3) center/cover',
          borderRadius: '8px',
          display: 'flex',
          alignItems: 'center',
          justifyContent: 'center',
        }}>
```

```

    </div>
  </SwiperSlide>
</Swiper>
);
}

export default FadeSlider;

```

5. Vertical Slider (Testimonials)

Vertical sliding direction. Great for testimonials or reviews.

```

import { Swiper, SwiperSlide } from 'swiper/react';
import { Pagination, Autoplay } from 'swiper/modules';
import 'swiper/css';
import 'swiper/css/pagination';

const testimonials = [
  { id: 1, name: 'John Doe', role: 'CEO', text: 'Amazing product! Highly recommended.', avatar:
  { id: 2, name: 'Jane Smith', role: 'Designer', text: 'Best service I have ever used.', avatar:
  { id: 3, name: 'Mike Johnson', role: 'Developer', text: 'Great quality and fast delivery.', av
];

function VerticalSlider() {
  return (
    <Swiper
      modules={[Pagination, Autoplay]}
      direction="vertical"
      pagination={{ clickable: true }}
      autoplay={{ delay: 5000, disableOnInteraction: false }}
      style={{ height: '300px' }}
    >
      {testimonials.map((item) => (
        <SwiperSlide key={item.id}>
          <div style={{
            background: '#f8f9fa',
            padding: '40px',
            borderRadius: '12px',
            textAlign: 'center',
            display: 'flex',
            flexDirection: 'column',
            alignItems: 'center',
            justifyContent: 'center',
            height: '100%',
          }}>
            <div style={{ fontSize: '48px', marginBottom: '15px' }}>{item.avatar}</div>

```

```

      <p style={{ fontSize: '16px', fontStyle: 'italic', marginBottom: '15px', color: '#555' }}
        "{item.text}"
      </p>
      <h4 style={{ margin: 0, color: '#333' }}>{item.name}</h4>
      <span style={{ color: '#888', fontSize: '14px' }}>{item.role}</span>
    </div>
  </SwiperSlide>
))}
</Swiper>
);
}

export default VerticalSlider;

```

Quick Tips

Prop	Purpose
navigation	Show prev/next arrows
pagination={{ clickable: true }}	Clickable dots
autoplay={{ delay: 3000 }}	Auto slide every 3s
loop={true}	Infinite loop
slidesPerView={3}	Show 3 slides at once
spaceBetween={20}	Gap between slides
breakpoints={{ 768: { slidesPerView: 2 } }}	Responsive
effect="fade"	Fade transition
direction="vertical"	Vertical slider

Import Cheatsheet

```

import { Navigation, Pagination, Autoplay, Scrollbar, EffectFade } from 'swiper/modules';
import 'swiper/css';
import 'swiper/css/navigation';
import 'swiper/css/pagination';

```

```
import 'swiper/css/scrollbar';  
import 'swiper/css/effect-fade';
```

--- OR ---

```
import 'swiper/css/bundle';  
  
@import 'swiper/css/bundle';
```
